- Geography and travel

I am a seasoned IT and management consulting professional with **12 years of experience**. Throughout my career, I have led numerous projects for prominent European companies across a variety of digital domains, including Mobility, Digital Workplace, M&A, Energy, and Data & AI. I am now seeking new opportunities where I can leverage both my **technical expertise and business acumen** to drive impactful solutions and create value

PROFESSIONAL EXPERIENCES

WAVESTONE - IT & Management consulting | 2013 – 2025

Digital strategy and transformation Senior Manager

Sectors: Multiple sectors for 5 years, then industry and energy since 2019

Main client assignments: I have successfully led over 20 diverse assignments across various industries, focusing on the following key areas:

- **Digital Workplace:** Developed roadmaps and implementation plans for collaborative solutions, mobility services, remote work, and BYOD initiatives.
- **Transformation programs:** Established structure, planning, and governance frameworks for large-scale digital transformation programs.
- **Contract Negotiations:** Managed contract negotiations with international service providers for IT services (TMA, Phoning, IoT).
- **IT Convergence Strategies:** Defined and executed strategies to streamline and optimize IT infrastructure and application landscapes through service convergence.
- **Data and AI governance:** Worked on designing and implementing Data office organization based on Data Mesh to support value extraction from Data through Data visualization and/or AI use cases.
- **Agile Organizational Design:** Led the definition and implementation of new organizational structures based on SAFe agile principles, improving the flexibility and predictability of digital factories.

Internal management: In parallel I also took internal roles within my Practice

- **Career Management:** Managed approximately 30 consultants, overseeing staffing, performance evaluations, coaching, and career progression.
- **Co-Lead, Data & AI Offer (Energy Sector):** Successfully steering an 8 M€ budget target on key accounts
- **Offer Development:** Led the development of a Digital Workplace offer with a focus on MS365 deployment strategies for frontline workers, generating 1M€ in the first year.
- **Training design:** Developed and delivered multiple training materials on Mobility Management, Data Governance, and Data Modeling.
- **Practice Performance Management:** Held responsibility for practice performance for 1.5 years, securing key KPIs such as staffing rate, costs, daily rates, etc.
